

TOP TEN WOMEN OF THE YEAR
National Conference, Kansas City, MO, 2009

The Top 10 Women of the Year luncheon was very moving and inspiring, to say the least! Each woman had a unique story of overcoming obstacles that many of us face in our own lives. What sets these women apart is their attitude, fortitude and heart. They collectively overcame breast cancer, loss of jobs, loss of homes, Hurricane Katrina, raising children as a single working parent, societal prejudices, and their own self-imposed limitations. They never gave up and they learned to believe in themselves and aim for the stars. Their stories are a poignant reminder that each of us has so much to offer and we should always continue to expand our horizons and have faith in ourselves.
